

NrgStream Adds Amerex Forwards Coverage

The Addition of Amerex Indicative Data Coverage Allows NrgStream to Provide Customers Greater Price Transparency in North American Energy Markets

CALGARY, Alberta and HOUSTON, Aug. 10 /PRNewswire/ -- NrgStream, the leading provider of ASP data management and distribution solutions for North American Energy Markets, announced today that it has entered into a licensing agreement with Amerex to redistribute and market their power and natural gas indicative data. "Energy traders require easy access to real-time and historic market data to price their products and services, manage their risk, and perform valuations for compliance reporting and disclosure. Given, industry regulatory requirements aren't going away; and fully auditable pricing will be a requirement for some time to come, instant access to accurate and comprehensive market pricing data is more important than ever," said Todd Young, President, NrgStream. "Today's energy trading firms depend on price transparency and liquidity for their success. With the addition of Amerex Indicative Pricing data, NrgStream customers not only gain the means to maintain more accurate daily mark to market reporting, they also get the basis for more meaningful forward market pricing."

"Amerex Indicative data provides an important piece of the puzzle in creating an accurate view of the market," said Mike Prokop, Senior Vice President, Amerex Energy. "We are excited to work with NrgStream to provide targeted forward energy market information through their state-of-the-art ASP data management and distribution solutions."

About NrgStream

NrgStream, with offices in Calgary and Toronto, helps leading energy trading organizations and professionals gain a competitive advantage in volatile power and gas markets. NrgStream's award winning data management and distribution solutions help customers optimize their use of market information and lower their total cost of ownership. By consolidating real-time and historical market data into a single, easy to use source for all their energy market information, NrgStream helps customers be more efficient and productive.
